

# SCH Tripeptide-32

## NEXT GENERATION PEPTIDES

Developments of new cutting-edge peptide-based drugs and molecules with pharmacological, diagnostic and cosmetic interest.

## Tripeptide-32

*Tripeptide-32 is a peptide consisting of amino acids proline serine and threonine*

*Applied to lips, it has been shown to strengthen supportive elements.*

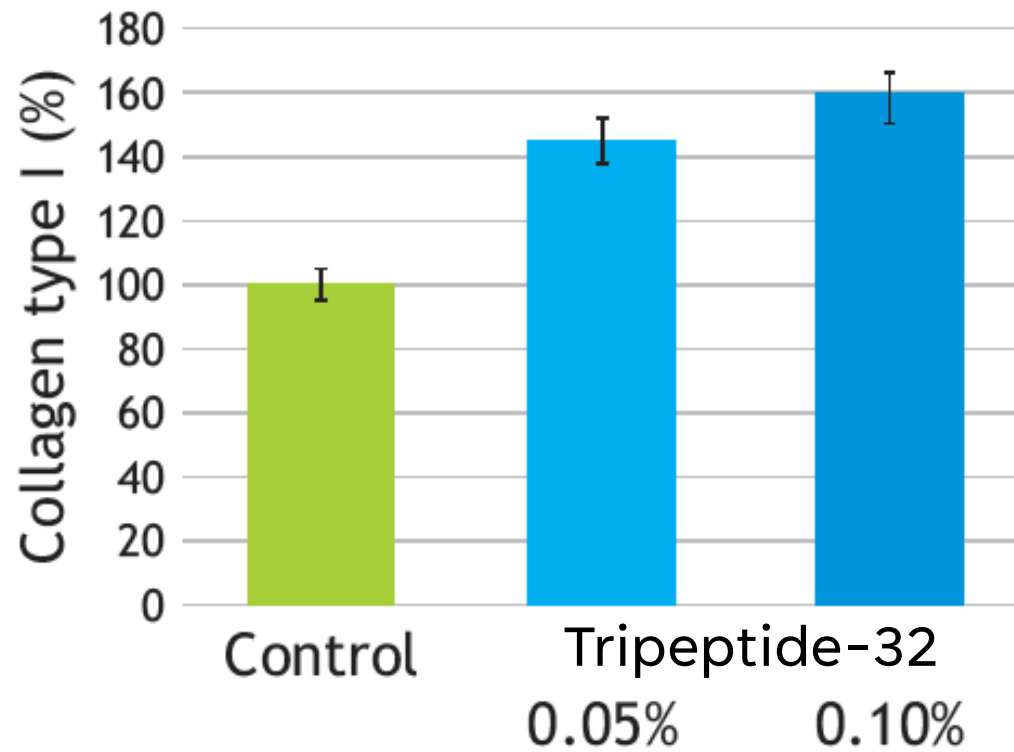

*Dramatically increases collagen I and III, **minimizing fine lines and wrinkles** while plumping the lips*

*4-fold increase in collagen synthesis by fibroblasts in 48h*

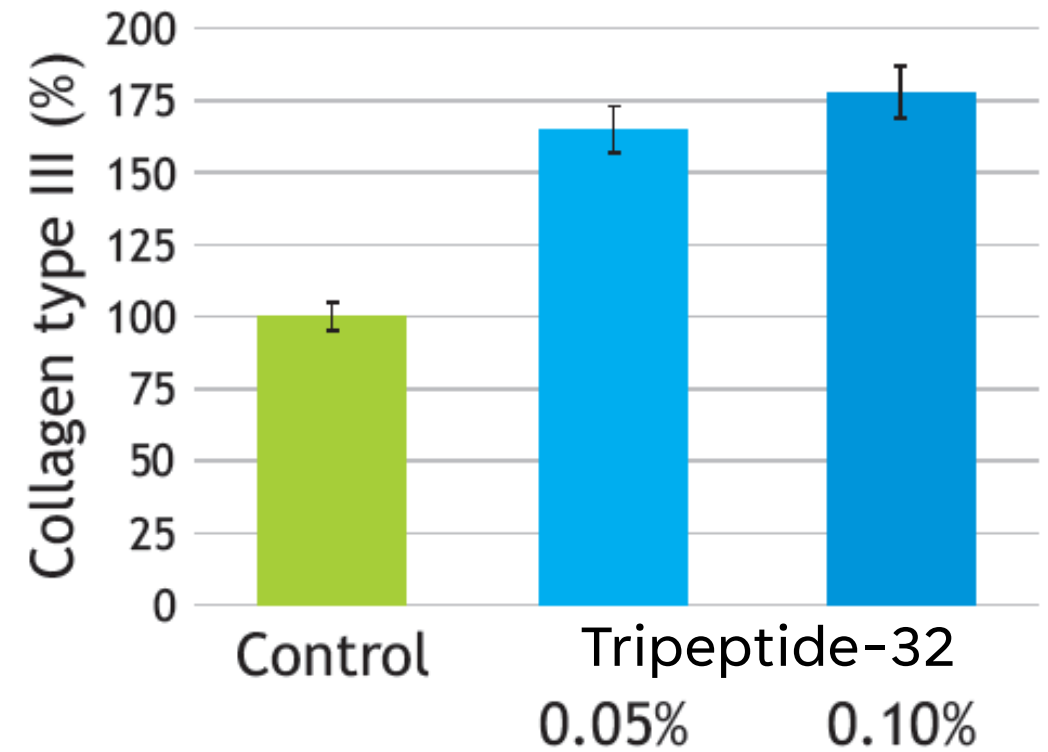

*This **improves uneven texture** and the look of fine lines and also helps reverse a dehydrated appearance*

## Tripeptide-32

**Lipeptide boosts Collagen  
type I in HDF**

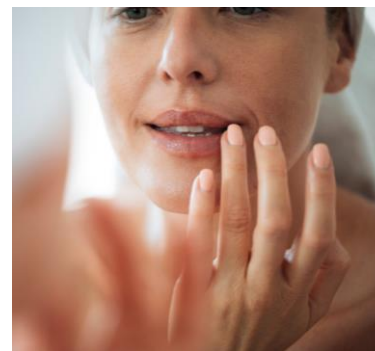

**Lipeptide boosts Collagen  
type III in HDF**

## Tripeptide-32

## Lipeptide efficacy, in vivo study

Results after using 3 time a day for 28 days

## SPECIFICATIONS

- Apperance: Powder form
- INCI.: Dextran, Tripeptide-32
- Solubility: Water soluble
- Recommended dose: Recommended dose: 3-5% from 1G/L solution
- Legal status: EU|US|CN|JP|KR|AUS

# THANK YOU

*Thank you for your interesting and attention!  
If you need sample and technical data, please  
contact us without hesitation*
