SCH PeptCare™ AcTT5

Actives for the skin

02 Ingredients

1. Acetyl Tetrapeptide-5

Draining / Decongestive / Anti-glycation

Acetyl tetrapeptide-5 (ATP-5) is a peptide with exceptional anti-endemic properties (draining and decongestive) with proven effectiveness to **reduce bags, drooping eyelids and dark circles** through a double action mechanism: collagen anti-glycation and **inhibiting the vascular permeability** that causes edema.
